Commercial Agriculture

Operating a commercial agriculture business involves a unique set of challenges. Protecting specialized equipment, machinery, inventory, facilities, employees, and other company assets is a top priority.

Our program provides ISO-based solutions for agents specializing in commercial agriculture processing, including livestock feed manufacturers, fruit/vegetable processing distributers, grain elevator operators, fertilizer dealers and distributors and many other specialized commercial agriculture businesses.

COMPREHENSIVE SOLUTIONS FOR COMMERCIAL AGRICULTURE BUSINESSES

The IGP Specialty team of dedicated underwriters provide quick turnaround for upfront policy issuance and deliver ongoing service excellence. We have developed successful relationships with leading carriers to help us offer coverages that protect your bottom line.

AVAILABLE COVERAGES

- Commercial property, general liability, excess liability
- Commercial inland marine
- Commercial automobile, transportation coverage, cargo coverage
- Business income and extra expense
- Crime coverage

Property, general liability, and auto broadening endorsements are available.

BUSINESSES

We also have extensive experience working with the following commercial agriculture businesses:

- Cotton gins
- Commercial farmers (field crops, vegetables, melons, berry crops, grapes, citrus, deciduous tree fruits, wholesale nurseries)
- Commercial dairies (milking more than 3,000 head/day)
- Commercial cattle feedlots (owned and non-owned cattle)
- Dairy products manufacturing
- Meat processing (other than ground beef only)
- Food products manufacturing
- Nut packaging and processing, including hulling and storage
- Rice milling, drying, and processing (including food preparations)
- Seed and seed dealers

Harvesting excellence

The IGP Specialty Commercial Agriculture Program recognizes the importance of efficiency, quality, and service, working with commercial agriculture businesses to provide cost-effective insurance solutions.
