Metals and Plastics Manufacturing and Machining

The IGP Specialty Metals and Plastics Program offers an ISO-based form with customized coverage endorsements to meet the needs of contract manufacturers in the precision tool and manufacturing industry.

When you work with us, programs are written on 100% admitted paper and you will have the support of dedicated specialists who know your business.

BROAD SOLUTIONS

Whether protecting a small, local shop or a national production facility with hundreds of employees, this program provides access to specialized coverage options:

- Property
- General Liability
- Product Liability
- Commercial Auto
- Workers' Compensation
- Umbrella
- Loss of Business Income
- Equipment Breakdown
- Inland Marine
- Crime

OPTIONAL COVERAGE AND ENDORSEMENTS

Our program also offers industry-specific coverage not available through other underwriters, including:

- Aviation product liability (available subject to underwriter review)
- Manufacturers E&O Coverage (availability varies by state)
- Loss control and risk management services
- Endorsements to enhance your standard policy coverage for property, auto liability, and equipment breakdown

With our program, you will receive service from someone who knows your business, as each policy is underwritten by knowledgeable professionals who are specialists in the metalworking and plastics industry.

In addition to our unparalled service, the program offers flexible payment options and claims are administered quickly and efficiently.

Protection for Your Specialized Industry

The metalworking industry faces many unique risks – from damage to specialized equipment to safety incidents caused by the dangerous tools used in the profession. These potentially hazardous work conditions require a comprehensive risk management program specifically designed for metalworkers.
