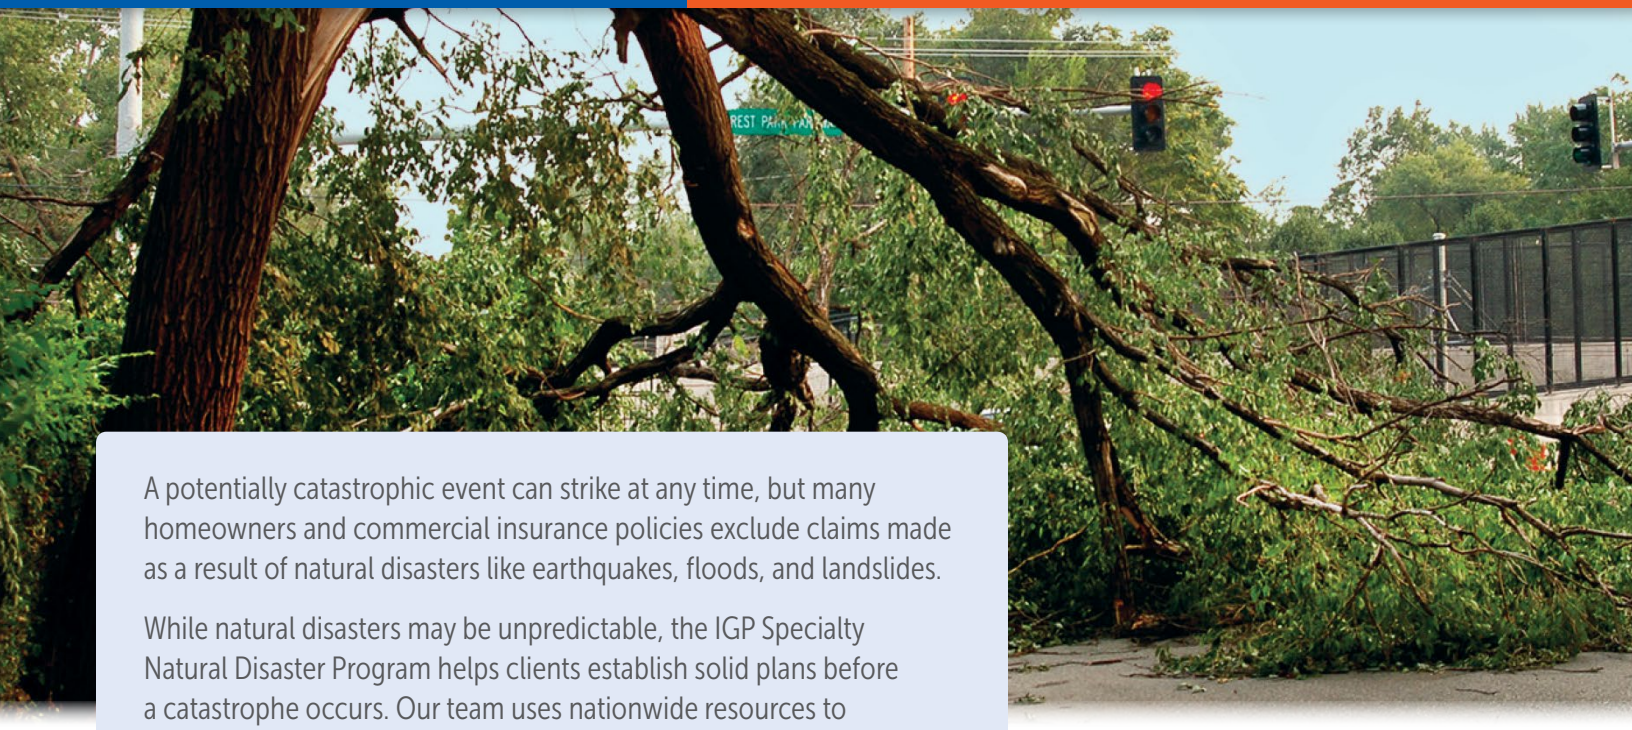
Natural Disaster Protection Program



A potentially catastrophic event can strike at any time, but many homeowners and commercial insurance policies exclude claims made as a result of natural disasters like earthquakes, floods, and landslides.

While natural disasters may be unpredictable, the IGP Specialty Natural Disaster Program helps clients establish solid plans before a catastrophe occurs. Our team uses nationwide resources to thoroughly assess risks in most geographic areas and will create a plan for protection that addresses the specific needs of the location.

COVERAGE OPTIONS

Residential Property

- Dwelling
- Other structures
- Personal property
- Additional living expenses
- Debris removal

Commercial Property

- Building
- Contents
- Loss of income/extra expense
