

# Workers' Compensation

## Supporting brokers with workers' compensation solutions

Workplace injuries can have a debilitating effect on employees and business operations. Establishing a workers' compensation program that addresses industry-specific needs is vital across all occupations - construction, transportation, healthcare, professional services, retailers, manufacturers, and more. Industry complexities, coupled with federal and state laws, increase the need to work with an experienced and knowledgeable team.

Since 1996, Agency Resources, a division of Safehold Special Risk, has been a national leader in wholesale workers' compensation insurance. We've built a strong reputation by offering workers' compensation solutions to both small businesses and large lines programs, with efficient and personalized service. Our dedicated team is highly knowledgeable and has the experience to help you succeed. We maintain strong carrier relationships, along with a volume of business that enables us to secure coverage that would otherwise not be available.

## Solutions for Diverse Industries

Agency Resources works with brokers serving clients from varied industries. Some of our common classes are:

- Carpentry-detached-construction & NOC (Notice of Construction)

- Trucking long haul, trucking firms
- Health care services, nursing homes, hospitals
- Masonry, concrete, or cement, wallboard installation, building operations, plumbing
- Drivers/chauffeurs
- School professionals, social services, residential care
- Retailers, wholesalers, manufacturers

As a leader in wholesale workers' compensation insurance, Agency Resources provides comprehensive solutions and the industry savvy you need to support the diverse needs of clients. We work with nationally recognized providers for small businesses, new ventures, and large lines programs, coverage in 46 states, 24-hour turnaround, no volume commitments, and convenient payment options.
